

POLICY 114.1.2: The county's wetlands protection regulations will be consistent with the following:

- ~~1. In accordance with F.S. 163.3184(6)(c), the county will not undertake an independent review of the impacts to wetlands resulting from development in wetlands that is specifically authorized by a DEP or SFWMD dredge and fill permit or exemption.~~
1. Lee County supports a more lenient wetland protection standard for limerock mines within the Future Limerock Mining overlay (Map 14). Lee County's overall wetland protection goals are better served by concentrating mining activity than by preserving isolated wetlands on mining sites.
2. No development in wetlands regulated by the State of Florida will be permitted by Lee County without the appropriate state agency permit or authorization.
3. Lee County will incorporate the terms and conditions of state permits into county permits and will prosecute violations of state regulations and permit conditions through its code enforcement procedures.
4. Every reasonable effort will be required to avoid or minimize adverse impacts on wetlands through the clustering of development and other site planning techniques. On- or off-site mitigation will only be permitted in accordance with applicable state standards.
5. Mitigation banks and the issuance and use of mitigation bank credits will be permitted to the extent authorized by applicable state agencies.
